## The Power Breezer Environmental Cooling Fan

The compact, strong, and easy to assemble Power Breezer quietly cools over 3000 sqft. It has been specially designed to cool outdoor or partially covered spaces without getting people or equipment wet. Amazingly, it can lower the temperature by 27 degrees within one minute.

Increase  
Guest Comfort

Reduce Worker &  
Visitor Heat Injuries

Increase Retail &  
Concession Revenue

Insect Control

*Veteran Made. Military Grade.*

Feature	Power Breezer	Benefit
Safety First	No hose connection needed.	No tripping or slip hazard.
Heat Injury Prevention	Reduce temperature by up to 27 degrees Fahrenheit	Lower heat related injuries in historically difficult to cool environments
Clear Breathing	Tank design allows for complete air dry after use. No dis-assembly needed.	Prevents mildew build-up and drastically reduces maintenance costs.
Advanced water technology	Not a swamp cooler. Water atomization extremely efficient - No nozzles or re-fill pads needed.	Minimal to no maintenance cost. Nearly indiscernible water atomization.
Simple Power	Use 110 or 220V electrical plug-in, generator, battery, or renewable energy.	Easy to power. Low energy consumption (900W or less; 7-9amps)
Integrated Water Tank	Hose or bucket fill up to 100 gallons in the integrated tank	Internal tank allows for "fill it and forget it" functionality. Easily mobile or connected for long term usage.
Designed for maximum Outdoor or partially covered spaces	All units oscillate allowing for up to 3000sf coverage in outdoor or partially covered spaces	Small number of units can cover a large amount of space.
Running Time	Water can last 4-5 work days with the integrated tank (assuming 10-12 hrs/day)	Minimal to no set up time. Low water consumption. Extremely convenient.
Height Adjustability	Fan height can range from 67" to 84"	Maximize usage when working in high or low areas
Storage Footprint only 42" H	Fan stores within its own hardened tank.	Reduces potential for damage and minimizes shipping/storage space
Performance Enhancement	Easy to setup, easy to operate, easy to implement.	A comfortable working environment increases morale and productivity
